Jaipur, Rajasthan | Sep 2025 - Present
- Currently enrolled in an intensive MERN Stack Development Program focused on real-world industrial training.
- Building full-stack projects using MongoDB, Express.js, React.js, and Node.js.
- Strengthening skills in REST APIs, authentication, state management, performance optimization, and clean architecture.
- Participating in mock interviews, coding assessments, and placement preparation sessions.
- Collaborating in team-based assignments following Git workflows and professional development standards.

Anantkaya AI | Frontend Developer Remote | Oct 2025 - Present
- Contributing to UI development for AI-based web applications.
- Implementing responsive and modern user interfaces using React, JavaScript, HTML, CSS.
- Improving performance, reusable component structure, and user experience.
- Collaborating with backend and design teams to ship production-ready features.

SKILLS

Programming Languages:	JavaScript, C, C++, Python, TypeScript
Libraries/Frameworks:	React, Node.js, Express.js
Tools / Platforms:	Git, VS Code, Postman, Passport.js, GitHub
Databases:	MongoDB, MySQL

PROJECTS / OPEN-SOURCE

New Bharat Footwear | Link *e-commerce, Razorpay, PayU, Admin Dashboard*
Built an e-commerce website featuring dynamic functionalities for users and admins. Implemented payment gateways (Razorpay and PayU) for secure transactions. Designed features like cart, wishlist, checkout, product reviews (restricted to purchased products). Developed an Admin Dashboard for managing orders, products, and user metrics dynamically. Optimized the website for performance by minifying CSS/JS files and ensuring fast load times.

Wanderlust (Airbnb Clone) | Link *Airbnb clone, responsive, UI/UX, Node.js, MongoDB*
Developed a fully responsive Airbnb clone with modern UI/UX for seamless user experience. Implemented backend APIs using Node.js and MongoDB.
